EDUCATION

Duke University
Bachelor of Science

September 2023 to May 2027
Durham, NC

Major in Computer Science; Minor in Philosophy

Cumulative GPA: 3.8 / 4.0

Relevant Coursework: Data Structures and Algorithms; Intro to Applied Machine Learning; Applied Product Management; Data Science and Statistical Thinking; Intro to the Design and Analysis of Algorithms

PROFESSIONAL EXPERIENCE

Deloitte

June 2026 to August 2026

Technology Strategy Summer Scholar

New York, NY

- Owned the Legal Day 1 employee experience deliverable and built out command center readiness materials, including timelines and a minute-by-minute execution plan, for a multibillion dollar bank M&A carve out
- Led biweekly RAID log reviews and meeting notes drafting, escalating roughly a dozen items to managers and surfacing new risks to keep the workstream on track
- Built custom Claude based AI skills to automate repeatable workstream processes and corrected a tagging and formula gap that was silently miscounting applications, standing up a live dashboard now relied on up to the CxO level
- Identified inconsistencies in the sign to close checklist, including errors and missing items, and drove resolution by building structured roadmaps and timelines

Precisely

June 2025 to August 2025

Data Quality Research Analyst Intern

Remote

- Researched and cataloged hundreds of datasets in Precisely's DQ tools to support rule standardization and enrichment
- Worked under the Product Management team to validate industry datasets against ISO and regulatory standards to identify over 350 semantic types and 1,000 rules for automated Recommended Rules in the Data Integrity Suite
- Compiled predefined rules across DQ products to support semantic rule library and assessment development

Eventus Advisory Group

June 2024 to August 2024

Marketing and Data Analyst

Remote

- Built a BERT based AI model to analyze \$2M in billing data and identify automation opportunities for efficiency
- Conceptualized market research and data analysis for lead generation, increasing client acquisition
- Coordinated with C suite at Liquidity Summit 2024 by prequalifying clients and providing logistical support

LEADERSHIP EXPERIENCE & EXTRACURRICULAR ACTIVITIES

Lebanon Volunteer Fire Department

February 2026 to Present

Volunteer Firefighter

Durham, NC

- Respond to live medical emergency calls with station crews and assist with patient care under EMS protocols
- Train weekly with station crews and take part in larger multi department exercises while completing fire academy coursework toward certification

Duke Consulting Club

January 2025 to Present

Project Leader

Durham, NC

- Developed consulting skills through training and client work in PowerPoint, Excel, and case interviews
- Delivered pro bono consulting with data backed insights to support client decision making
- Partner with a confidential client via biweekly meetings to tailor deliverables and advise on leadership structure and organizational alignment

Stage

October 2023 to December 2025

Chef De Cuisine

Durham, NC

- Lead the development and execution of monthly seven course tasting menus and trained 4 new members
- Oversaw the entire process from sourcing ingredients to preparing and serving dishes to 16 guests per dinner service
